

# Eyefinity® EHR

## Built for the Way You Practice

Eyefinity EHR is a cloud-based electronic health record solution that enhances your patients' experience, cuts exam and documentation time, and adapts to the way you practice.

## Enhanced Patient Engagement

Enjoy more face-to-face time with patients, not the computer screen, when you use the iPad® app during an exam.

## Adaptive Technology for a "Custom Fit"

Eyefinity® EHR adapts to the unique way each doctor in your office likes to perform an exam. With exam protocols, each doctor's exams are populated with preferred procedures and produce consistent documentation.

## Safely Collect Patient Data

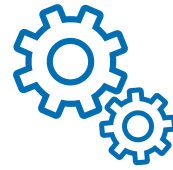

With kiosk, patients can check in using a designated iPad and fill in their own medical and family history. Eliminate double entry and be paperless, while staying HIPAA compliant.

## Easy Documentation

Quickly document a new routine exam using past exam information with the copy forward feature.

### Experience the Complete Eyefinity Cloud Platform

Eyefinity EHR integrates with OfficeMate®, Eyefinity Practice Management, and AcuityLogic™, allowing you to customize a solution to fit your specific needs.

## Visit Overview Progress Bar

See exam progress, including what your technician has completed, and immediately identify missing steps that might affect billing.

## e-Fax

Eliminate wasted staff time and build medical referrals through instant communications with primary care and referring physicians.

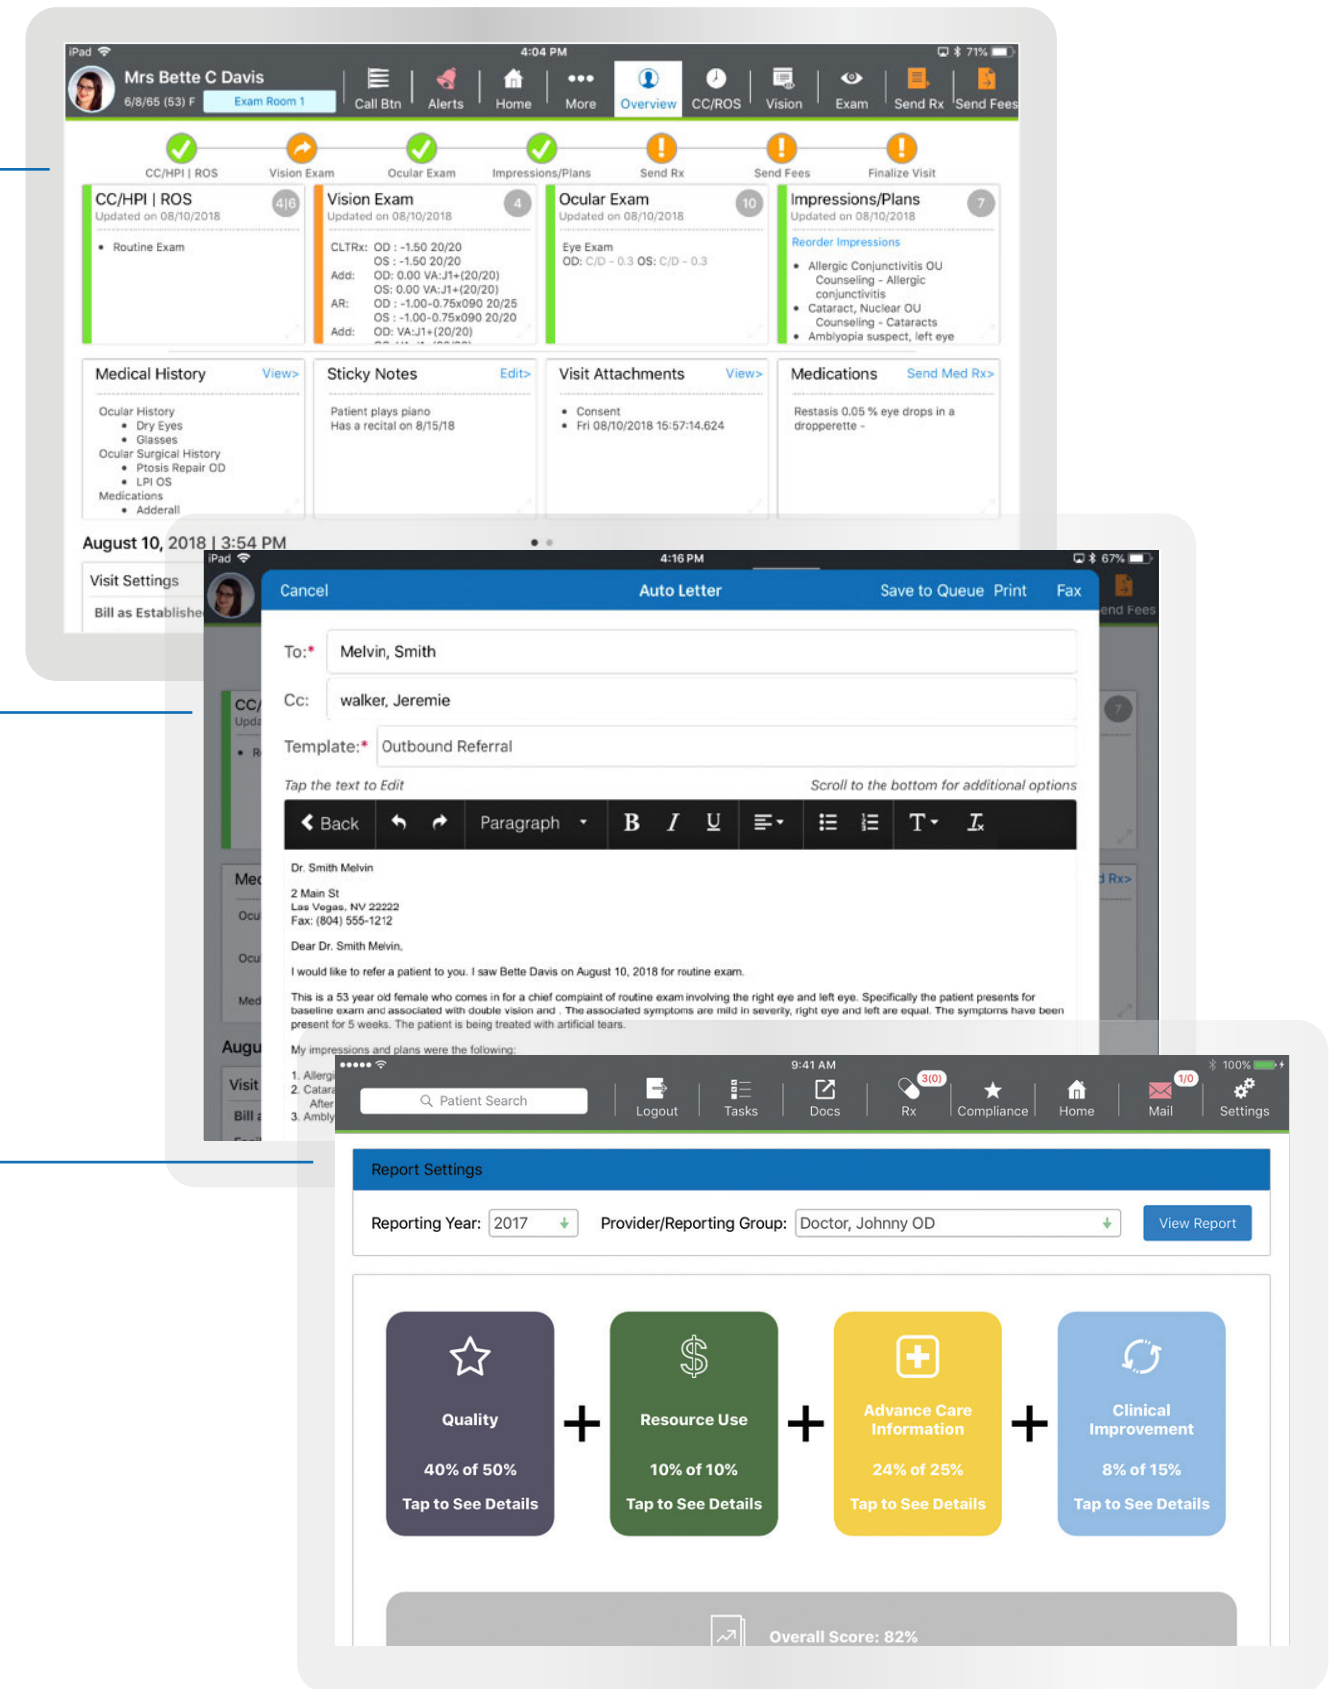

## Compliance

Succeed with our MIPS performance evaluation, built-in registries, and IRIS® for ophthalmology practices.

## Additional features

- MIPS ready
- Meaningful use certified
- Easy access and entry of patient demographic information
- Inventory, barcode printing, and scanning

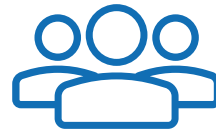

All names are fictitious. No association with actual persons should be inferred.

## LEARN MORE

### System Requirements

System requirements are routinely reviewed and updated as technology advances. Visit [www.eyefinity.com/EyefinityEHR](http://www.eyefinity.com/EyefinityEHR), and click on System Requirements for the latest information.

### Partner Integrations

Eyefinity partners with industry-leading companies to bring you additional features that complement your Eyefinity solutions and enhance your workflows. Visit [www.eyefinity.com/partners](http://www.eyefinity.com/partners) for more information.
